

Beggars And Heroes

Bellamy Brothers

Sittin' in a bar talking to my friends
Talking 'til the night gets late
All the girls we knew all the girls we lost
Headed straight from love to hate
Oh we are fighting for love so it seems
But we're just trying to keep our dreams
Strumming with our friends
Girls have broken down to tears

They're beggars and heroes like me
Beggars and heroes like me
And they're fighting and they're stealing
Begging for a feeling
In the end they all surrender
They're beggars and heroes like me

Sittin' in a bar just a drink or two
Makes it easy to survive
Good old country songs good old country tales
About the real things in life
Though we are heroes and ready to fight
But girls keep breaking our hearts at night
Helpless in their arms lost forever to their charm

They're beggars and heroes like me
Beggars and heroes like me
And they're fighting and they're stealing
Begging for a feeling
In the end they all surrender
They are beggars and heroes like me

And they're fighting and they're stealing
Begging for a feeling
And in the end they all surrender
They are beggars and heroes like me
Beggars and heroes like me
Beggars and heroes like me

Beggars and heroes like me
Beggars and heroes like me
