

Blue California

Bellamy Brothers

I hit the road to California down highway number one
In my heart and in my mind my country lady
I know every single station, they play the same old song
And I know I'm on the way where I belong

Blue, blue, blue California
All I wanna do is get on back to you
Blue, blue, blue California
You're the only one to make my dream come true

Long ago I had to leave you cos I really had no choice
I was living every night and day for you
Up ahead I see the mountains lying in the blazing sun
And I can feel my heart beating, I'm back home

Blue, blue, blue California
All I wanna do is get on back to you
Blue, blue, blue California
You're the only one to make my dream come true

Blue, blue, blue California
All I wanna do is get on back to you
Blue, blue, blue California
You're the only one to make my dream come true
You're the only one to make my dream come true
