

If It's So Easy

Bellamy Brothers

They say that love is just a piece of cake
They tell me love is just a give and take
They make love sound like it comes easily
If it's so easy why was it so hard for me

They say that love will sparkle in her eyes
They tell me love's not hard to recognize
They make love sound like it's not hard to find
If it's that easy what was it made me so blind

If love is good and love is great
Why don't they make love too good to break

My friends tell me that I will love again
But I'm much wiser now than I was then
I've seen how easy love can change its mind (Change its mind)
It does so easy that's why I'm so scared this time

If love is good and love is great
Then why don't they make love too good to break

I've seen how easy love can change its mind (Change its mind)
It does so easy that's why I'm so scared this time
It does so easy that's why I'm so scared this time
