

Illusions Of Love

Bellamy Brothers

From a child meek and mild
That lived with a smile
So simple and innocent it seemed
Went searching for knowledge
Of life and its love
And truth faded into my dreams

Searched over the mountains and over the seas
Between the lines of the songs
Across the deserts, oh where can it be
It only appears to be hiding from me

Illusions of love that love to deceive
Delusions of life and its fallacies
It's that same ole story since Adam and Eve
Illusions of love we love to believe
We love to believe

From then 'til now
I can't imagine how
I'm still having visions unseen
I may never find
The love I'm looking for
I may never know what life means

Sometimes I'll be happy, sometimes I'll be sad
And that's when I'll move on along
Just like the spirit that I'm lookin' for
I only came here to be gone

Illusions of love that love to deceive
Delusions of life and its fallacies
It's that same ole story since Adam and Eve
Illusions of love we love to believe
We love to believe
