

Makin' Music Mama

Bellamy Brothers

Making music mama all night long
Thinking some words I run along
You don't have to be careful with what you saying
I made a deal it's coming together
It gets to feeling better as we play it

Making music mama all night long
Till we get it feeling right we just keep playing
Making music mama all night long
Till we slowly come together with our song

It scares the groove and hold the steady
To the rhythm of heart beat we go sweaty
I call three reads like love letter
I can tell by the way the rhyme is laying

Making music mama all night long
Till we get it feeling right we just keep playing
Making music mama all night long
Till we slowly come together with our song
With our song
