

Ole Faithful

Bellamy Brothers

When the chips are down she's always around
Someone I can lean upon
A statue for a fool, my shoulder to cry on
And even in a cold hard rain
The feelings still the same
Ole faithful my everlasting flame

When I play a games her favorite things
To understand her man
Seems her purpose in life, the reason for living
But there's no need for me to fool around
'Cause she puts them all to shame
Ole faithful my everlasting flame

She's always there to greet me any time of any day
And just because I know she needs me
I will never walk away
And even in the cold hard rain
The feelings still the same
Ole faithful my everlasting flame

She's always there to greet me any time of any day
And just because I know she needs me
I will never walk away
And even in the cold hard rain
The feelings still the same
Ole faithful my everlasting flame
Ole faithful my everlasting flame
