

Some Broken Hearts

Bellamy Brothers

Coffee black, cigarette
Start this day like all the rest
First thing in the morning that I do
Start missing you.

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die.

Coffee black, cigarette
Start this day like all the rest
First thing in the morning that I do
Start missing you.

Rendezvous in the night
A willing woman to hold me tight
And in the middle of love's embrace
I see your face.

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die.

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die.

Some tears will never dry
My love for you will never die.

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die.

Some broken hearts never mend
Some memories never end
Some tears will never dry
My love for you will never die...
