

# Perfect Bliss

Bellefire

I think they call it love  
It's nothing to be scared about - believe me  
ain't nothing we can do  
just let it be a part of you - and feel it

I wanna let you know  
I promise, I promise  
to never let you go you know,... you know

We can make it good  
we can make it right  
we can make the shadows turn to light  
boy when it feels like this,  
when it feels like this  
It's some kind of perfect bliss,... some kind of perfect bliss  
we don't need to hurt  
we don't need the pain  
we can be the sun behind the rain  
boy when it feels like this,  
when it feels like this  
It's some kind of perfect bliss

You're scared it's gonna change  
you say you need a guarantee,... just leave it  
You'll look but you won't find  
Don't you know that love is blind,... just feel it

I wanna let you know  
I promise, I promise  
to never let you go you know... you know

We can make it good  
we can make it right  
we can make the shadows turn to light  
boy when it feels like this,  
when it feels like this  
It's some kind of perfect bliss,... some kind of perfect bliss  
we don't need to hurt  
we don't need the pain  
we can be the sun behind the rain  
boy when it feels like this,  
when it feels like this  
It's some kind of perfect bliss

It's A to Z, it's chemistry, it's meant to be  
It's everything, it's all we need, just let it be  
yeah.....

I wanna let you know  
I promise, I promise  
to never let you go you know... you know

We can make it good  
we can make it right  
we can make the shadows turn to light  
boy when it feels like this,

when it feels like this  
It's some kind of perfect bliss  
we don't need to hurt  
we don't need the pain  
we can be the sun behind the rain  
boy when it feels like this,  
when it feels like this  
It's some kind of perfect bliss

Some kind of love  
Some kind of feeling  
Some kind of miracle  
Yeah...  
Some kind of perfect bliss
