## **Bird Mess**

**Belleruche** 

Don't care, won't go nowhere I'll stay home And make a little mess Two hearts colliding Well it's doomed You're gonna get yourself in a mess Hopes and expectations leave you Ever so confused Go your way and I'll go mine So we'll never ever have to cross Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed Well I won't listen I won't even take your call No I won't listen I won't even take your calls Don't care, won't go nowhere I'll stay home And make a little mess Two hearts colliding Well it's doomed You're gonna get yourself in a mess Hopes and expectations leave you Ever so confused Go your way and I'll go mine And we'll never ever have to cross Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed Well I won't listen I won't even take your call No I won't listen I won't even take your calls Warm in my bed Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed Once upon a time I'd say Rest your feet and weary head Close your eyes and make yourself warm in my bed
