Belleruche

Come now and dare to be straight with me
I'll share I might even be straight with you
Go on now, she'd some skin
So I can get a good look in
And I'll find out what makes you tick
All it's here
Cause you're here and I'm here
And I feel this is where it's gonna get most interesting
Won't you tell me something
Tell me, tell me something true
Won't you tell me something
Tell me, tell me something true
Won't you tell me something
Tell me something true
Won't you tell me something
I know you've got your secrets
Well I've got some too
No need to tell me everything
I'd also like to keep a few
Too sweet to be shy now
Since we've broken down down
Everything that can be broke, oh
Is your story getting old
Well, we've been spending some time
And what a lovely time it's been
Won't you tell me something
Tell me, tell me something true
Won't you tell me something
Oh tell me something true
Won't you tell me something
Tell me something true
Won't you tell me something
Tell me, tell me something true
I'm not sure what you want from me
Nor what I want from you
Some tales I can't quite believe
Even though I'd like to
Sea stories you've been spinning free
You got my curiosity down someone else's memory lane
Oh a little bit too strange
Well, we've been spending some time
And what a lovely time it's been
Won't you tell me something
Tell me, tell me something true
Won't you tell me something
Tell me something true
Won't you tell me something
I'd like to hear something
Won't you tell me something
Cause I'd like to get to know you
