All I need is good drink and a good whine
Jump on boys acting like they're hood guys
If your looking at me wrong then bom bye
Woke up in a rave like, I'm that nigga
10 shots man I take it to the liver
But dem boy they can never walk with me
Baby girl what's your name come and talk to me
We're both looking at each other its not the banter
Come and sit on my lap like I'm Santa
Baby girl fuck all the banter
Please excuse my French Montana
Quit all the games baby girl why you playing?
I looked her in her eyes like baby what you sayin?
Are you leaving with your friends or are you staying
Now I got her on her knees man and she ain't even praying

Baby girl quit all the bantar
Come round and come take this banana
Body dripping sweat, but mi not done yet
Someone tell em' cool off take a Fanta
