

# Change

Belly Squad

People said I changed, I can't change over some change  
Don't hate the player mate, you should hate the game  
If cuzzy here is pissed, making pull up like I'm pissed  
Spilling champagne I can really get insane  
Watch you whizzing round in the sun and in the rain  
Come thru big drip  
Baby I can make it rain  
Watch you whizzing round in the sun and in the rain  
Come thru big drip  
Baby, I can make it rain

Bags all under my eyes  
Looking at the food I'm somewhere else  
Bro got caught in his smoke, by the way that's good for your health  
Boy I am gonna stay on my grind  
Yes I wanna put on my wealth  
My gyal wanna come bright, just a Mercedes no throf  
Came out the deep end looking like we made it out  
And she like the crew like the weekend, that's why she's getting out  
So she got tan of course  
Pleeding like carnivals  
Remember back then it was rauf that orps  
Now it's that day, just spliff and sauce

I got all my haters right beside me  
No disrespect  
They ain't taking it lightly, it turned into a mess  
Hot step in my air ones  
Might drop let with the teck  
A lot of talk but can't fear none  
See gang pull up with text  
Ask girl on the right  
See two man I chuck that left  
Got me holding hands, like we should using weights instead  
Thirty of the fucking back ends  
You know I butter my bread  
I'm in Sweden doing crackends  
Holding T instead

They say I changed for change  
Just cause my price went up  
I bet 10K of my chain, I'm saying only if you can rise it up  
I will still see opp on main  
Spud my blade and likkle dice it up  
In case they were tyring their luck  
Caught more bitch and might of does

Came through dripping  
Put on my shoes they're red  
Let them think I'm blue like I'm crippin'  
I just want neck, she begging me to put the tip in  
No fucks given  
Falling in the love, that's fiction  
More like Chloe and Tristran
