Baby buss it open, lemme see you first
She bad and bougie, put your makeup on my T-shirt
She said sorry, but it's calm
I'll buy another one, and another one
Drinking 'till the bottle's done
Bring her to the bed and give her mean work
Throw it back so I can catch it baby, teamwork
Bring her to the bed and give her all that mean work
Throw it back so I can catch it baby, teamwork

I'm with your missus in the coupe

Told her 'I want no breaks'
So I told her 'relax'
I'm stuck in my old ways
I just mash and dash
I remember the old days
She didn't, wanna, lash
It takes, two, it takes two to tango
My niggas need a break, their always trappin' in the bando
If I want it, I go get it, I go get it pronto
Talk about waps, but not [?]
You ain't gonna bang, no
Where's that lingerie? Baby put it on
When I get to your crib, you know I'm gon' put it on you
Show me that lingerie, baby put it on
You know when I get to your crib, you know I'm gon' put it on you

Came from the block, pissy stairways
To British Airways
I might take a flight, I might take a flight
Pray for better days, so I give my grace
Ciroc with the ice, Ciroc with the ice
Step out with the g's, yeah the goons
Never runnin' out of options, baby I can choose
And
I like my women brown and yellow
I've been a cheeky fellow, I've been a cheeky fellow
Stay drippy, like a left the tap runnin'
Bro with smoke, you gon' need another lung in
