

# Deadweight

Belmont

Dead Weight  
I'm only losing ground  
By running all around with your  
Dead Weight  
And I keep wasting so much of my own time  
Searching for words that I can't find  
Dead Weight

(Take it back)  
Take it back  
Taking back all of the things that I regret  
Losing track  
Facing facts  
Remembering the pain you left  
That I just can't accept

And I can't help myself  
I'm burning all these bridges down again  
I keep on running back  
No matter what I do I'm stuck with this

Dead Weight  
I'm only losing ground  
By running all around with your  
Dead Weight  
And I keep wasting so much of my own time  
Searching for words that I can't find  
Dead Weight

I understood that one day  
All of the pieces would fall in place  
I never knew much different  
But I guess time will leave all things to decay

I couldn't myself  
I burnt my bridges down again  
I'll keep on running back  
No matter what I do I'm stuck with this

Stuck with this, stuck with this...

Dead Weight  
I'm only losing ground  
By running all around with your  
Dead Weight  
And I keep wasting so much of my own time  
Searching for words that I can't find  
Dead Weight

I'm only losing ground  
By running all around  
I'm only losing ground  
By running all around  
I'm only losing ground  
By running all around with your  
Dead Weight  
I'm only losing ground

By running all around with your...  
Wasting so much of my own time  
Searching for words that I can't find  
Dead Weight
