

Step Aside

Belmont

Step aside

I'm losing patience with the way you waste your life
And now I'm ripping at the seams you stitched too tight
Recycling old habits won't clean the dirt that you left behind
Quietly
I'm moving on
Stagger back
Don't break my fall

I know my place

And it's not far from the bed you make
Selfish decay rots away at the foundation that we tried to lay
With all feelings aside I needed distance space and time
Overworked with thoughts of my fleeting willingness to try

Step aside

I'm losing patience with the way you waste your life
And now I'm ripping at the seams you stitched too tight
Recycling old habits won't clean the dirt that you left behind
Quietly
I'm moving on
Stagger back
Don't break my fall

A tethered weight strapped down to the bottom of my feet just to hold
me in place:

I felt you lean on me for song long and I can't believe that you thin
k I'm still your property
Quick pick
Tight grip
I'm running in circles so hastily

Step aside

I'm losing patience with the way you waste your life
And now I'm ripping at the seams you stitched too tight
Recycling old habits won't clean the dirt that you left behind
Quietly
I'm moving on
Stagger back
Don't break my fall

Step aside

I'm moving on
Step aside
Quietly
I'm moving on
Stagger back
Don't break my fall
