

# Eclipse

Beltaine

Any day, any night, any season  
Following year goes away  
Solitude, pain in my heart  
I've never seen before

Any day, any night, any season  
Following year goes away  
Experience, all in my life  
I'll never feel again

Burns in my veins!  
...and the fear in the eyes  
Burns me  
...and the fear in the eyes

Follow me, follow sign, follow wish  
and any way reach for the sky  
Take all if you want  
until you fall in gray

Follow me, follow sign, follow wish  
and any way reach for the sky  
Dream, all in my life  
I'll never feel again

Burns in my veins!  
...and the fear in the eyes  
Burns me  
...and the fear in the eyes

When silent torture comes to  
eclipse my heart  
You can't help me, my friend  
to break shadows

Bury me in the wood  
into the grave-mound  
Nevermore waste any time  
Days go by and life  
you'll never live again

Bury me in the wood  
into the grave-mound  
Nevermore waste any time  
Fear of old age...

Burns in my veins!  
...and the fear in the eyes  
Burns me  
...and the fear in the eyes

When silent torture comes to  
eclipse my heart  
You can't help me, my friend  
to break shadows
