Without Love

Ben Abraham

Without love I was lost at sea
Waiting patiently for someone to come for me
And then love brought you by my way
On that rainy day to rescue me

So when the wind is a'blowing and the waves are high
I'll just remember that you led me into the sunshine after the
rain

Now I know I was made for you
No more sailing through without love

So when the wind is a'blowing and the waves are high
I'll just remember that you led me into the sunshine after the
rain

Now I know I was made for you
No more sailing through without love
