

# Higher

Ben Fuller

I was rough around the edges  
Just like a broken bottle  
I was running wild and reckless  
A "Mustang" at full throttle

I was broke and I was using  
Every avenue I had  
I couldn't keep myself from losing  
One step forward, two steps back

Ooh  
Somewhere at the bottom  
Ooh  
Said a simple prayer

Lord, take me higher  
Get me up off the floor  
I'm getting tired  
There's gotta be something more

I need to hear from You  
I need a gospel truth  
I'm at my lowest. Won't You throw me a line?

Lord, take me higher  
There's gotta be something  
There's gotta be something higher

Lord, take me higher  
There's gotta be something  
There's gotta be something higher

Before I read it in a Bible  
'Fore I heard it in a church  
Only time I said His name  
Was when I used it as a curse

Now I need it for survival  
When I'm drowning in my doubt  
Now I know it's not in vain  
When I say Your name and shout

Lord, take me higher  
Get me up off the floor  
I'm getting tired  
There's gotta be something more

I need to hear from You  
I need a gospel truth  
I'm at my lowest. Won't You throw me a line?

Lord, take me higher  
There's gotta be something  
There's gotta be something higher

Lord, take me higher  
There's gotta be something

There's gotta be something higher

Ooh

If you're somewhere at the bottom

Ooh

Nobody left to blame

Ooh

Can't get up from where you've fallen

Ooh

Just call on Jesus' name

Lord take me higher

Woo

I'm getting tired

Higher

I need to hear from You

I need a gospel truth

I'm at my lowest. Won't You throw me a line?

Throw me a line

Lord, take me higher

There's gotta be something

There's gotta be something higher

Lord, take me higher

There's gotta be something

There's gotta be something higher

Higher

There's gotta be something

There's gotta be something higher

Higher

There's gotta be something

There's gotta be something higher

Ooh
