

World Changed

Ben Fuller

Man, I was in trouble, I was all alone
And the fight I'm fighting, it was for my soul
I was waiting for a change, but wasn't changing
I was trying not to bend, but I was breaking
I was out of answers, I was out of plans
And the only thing I had to bring were dirty hands
I was looking for a friend, but couldn't find one
I was barely hanging on

And like jumper cables to my chest
From death to life in just one breath
You left an open grave
That's the moment my whole world changed

I was falling faster, I was sinking in
Didn't know how razor-close that I was to the end
All along you knew that I would need a Savior
So You resurrected me

And like jumper cables to my chest
From death to life in just one breath
You left an open grave
That's the moment my whole world changed
Like lightning tearing through the dark
Your love came bursting through my heart
Oh, what amazing grace
That's the moment my whole world
Moment my whole world changed

Whole world changed
My whole world changed
That's the moment my whole world
Moment my whole world changed

This is my story (This is my story)
This is my resurrection song
Ashes to glory (Ashes to glory)
Heaven on Earth has just begun
This is my story (This is my story)
This is my resurrection song
Ashes to glory (Ashes to glory)
Heaven on Earth has just begun

When the world went silent, and all hope was lost
When the king of heaven hung upon a sinner's cross
In the moment, yeah, we thought that it was over
Turns out that we were wrong

'Cause like jumper cables to my chest
From death to life in just one breath
You left an open grave (You left an open grave)
That's the moment my whole world changed
Like lightning tearing through the dark
Your love came bursting through my heart
Oh, what amazing grace (Oh, what amazing grace)
That's the moment my whole world
Moment my whole world changed

Whole world changed
My whole world changed
That's the moment my whole world
Moment my whole world changed
