Ben Gibbard

There are things I want to do  
But I don't know if they'll be with you  
If they will be with you  
There are things I want to say  
But I don't know if they will be to you  
If they will be to you

But she'll never get a feeling when you're taken by the hand  
And let a course you can come in  
When to beg but I'm not ready  
Baby I've been fucked already  
Falling into line when I'm doing nothing  
We've got nothing worth discussing  
When to go but it's all hazy  
People say I'm going crazy

There are things I want to do  
But I don't know if they will be with you  
If they will be with you  
There are things I want to say  
But I don't know if they will be to you  
If they will be to you

And she'll never get a feeling when you're taken by the hand  
And led of course you can come in  
When to beg but I'm not ready  
Baby I've been fucked already  
Falling into line when I'm doing nothing  
We've got nothing worth discussing  
When to go but it's all hazy  
People say I'm going crazy

All I know  
Is all I know  
What I've done I leave behind and  
I don't want what's sure to find me  
All I know  
Is all I know  
What I've done I leave behind and  
I don't want what's sure to find me  
All I know  
Is all I know  
What I've done I leave behind and  
I don't want what's sure to find me
