

December

Ben Gibbard

I'll take this chance to tell my friends
What I'm thinking of
On second thought
I'll think some more and tell you later on

She don't even care
That I would die for her love

My mind is full of several things
Assembling the thoughts
I'll take this chance to tell my friends
What I'm thinking of

She don't even care
That I wouldn't die for her love

I've had this plan for many years
But now I can't remember
I wanted to assassinate December
I wanted to assassinate December
