

# Guiding Star

Ben Gibbard

When everything you own is lost  
And every friendship has it's cost  
Your rolling stone has gathered moss  
And all your clouds color the sun  
And all your karma has undone  
Remember you're my number one

Hey  
You're my guiding star  
I do know who you are  
Your my guiding star

Don't you think you've heard this song before  
Jesus Christ is knocking at my door  
Kind of like the way he wears his hair  
Kind of like the way he walks on air  
Could his golden halo be the sun we all know?
