

# Keep Yourself Warm

Ben Gibbard

My hole, I'll get my hole  
I'll get my hole  
Get my hole, get my hole  
And I will find out more  
It's a choo-choo train  
A rocket launch  
If we have a hormone race  
I'm bound to finish first

Can you see in the dark?  
Can you see the look on your face?  
The flashing white light's been turned off  
You don't know know who's in your bed  
It takes more than fucking someone you don't know  
To keep warm  
Do you really think that a fuck at half speed  
You'll find your love in a hole?

No you won't find love in a  
Won't find love in a hole  
It takes more than fucking someone  
To keep yourself warm

I'm drunk, I'm drunk  
And you're probably on pills  
If we both got the same diseases  
It's irrelevant, girl  
And the room fills with steam  
It evaporates, disappears  
My point of entry is the same way  
That I'll leave

Can you see in the dark?  
Can you see the look on your face?  
The flashing white light's been turned off  
You don't know know who's in your bed  
It takes more than fucking someone you don't know  
To keep warm  
Do you really think that a fuck at half speed  
You'll find your love in a hole?

But you won't find love in a  
Won't find love in a hole  
It takes more than fucking someone  
To keep yourself warm

You won't find love in a  
Won't find love in a hole  
It takes more than fucking someone  
To keep yourself warm

See in the dark  
See in the dark  
See in the dark  
See in the dark  
See in the dark  
See in the dark
