Brown Eyed Blues

Ben Harper

If I knew being here with you today, Would mean being alone tomorrow. I would gladly trade all of my tomorrows away For a moment with you.

Brown eyed blues You can find yourself another fool. Say yeah,yeah

Can you look, can you look into my eyes Or has your heart, said has your heart gone blind? Can you look, can you look into your own And find the safe place to hide.

Brown eyed blues You can find yourself another fool. Say yeah,yeah

Why be with strangers When you can be with your friend. If you're ever lonely You know I'm lonely too And i will stay lonely until I'm again with you.

I said brown eyed blues You can find yourself another fool. Say yeah,yeah,yeah I said brown eyed blues You can find yourself another fool. Singing brown eyed
