

## Found The One

Ben Harper

I found hay in a stack of needles  
Four-leaf clover in a mile of weeds  
(Found the one)  
Understands my downs  
(Found the one)  
Puts up with my needs  
Of everybody under the sun  
I found the one

If you're gonna gamble  
May as well be on love  
(Found the one)  
May have had some before  
(Found the one)  
But now you can't get enough  
Before it's all said and done  
I found the one

I found myself in trouble  
Found myself waiting in line  
(Found the one)  
Found so many ways  
(Found the one)  
Of wasting my time  
No more races to run  
I found the one

Now I follow my heart  
Wherever the road ends  
(Found the one)  
Most people you see every day  
(Found the one)  
You'll never see them again  
Come rain, come sun  
Found the one
