

More Than Love

Ben Harper

Money can't buy it
And thank heaven for that
No good to deny it
It's just a natural fact

More than everything
I thought I knew
More than any dream
That could ever come true

I love you more
Than every note
More than every word
Your favorite poet ever wrote

More than tomorrow
Loves the very next day
More than a hurry love
Right away

More than the church bells
Love to ring
More than a gospel choir
Loves to sing

More than rock
Loves to roll
More than any religion
Wants to save your soul

I love you more
Than every single note
More than every word
Your favorite poet ever wrote

More than a hurry
Loves right away
More than all the seasons
Change as they may

More than you love to be loved
Can you imagine
That is still not enough
In every language
In every tongue
More than all the memories rolled into one

I love you more
More than love my love
