

## Need To Know Basis

Ben Harper

You're the reason  
Aliens would come down to Earth  
Outer space must look small  
From inside your universe

But your love is on a need to know basis  
And I need to know right now

We paint time  
With the colors of our lives  
With what we do to survive

But your love is on a need to know basis  
And I need to know right now

If I were the branch  
Of an old oak tree  
I hope you'd be the one  
On the swing tied to me

But your love is on a need to know basis  
Your love is on a need to know basis  
I need to know right now
