

Twilight

Ben Howard

I don't have time to be running round here looking for answers
Still I won't, I won't change my mind
There's something in these shadows dancing
Oh, still

Twilight gon' move you
Midnight gon' prove you wrong
She don't care about nobody
And all I'm looking for is a song
Oh sometimes all I'm looking for is a song
Oh my my all I'm looking for is a song to sing

La la la la la la la
La la la la la la la

She brings out
Oh it's her throughout
Oh she brings out

Oh the brighter side, brighter side of me
Brighter side, brighter side you see
Brighter side, brighter side of me
Oh the brighter side, brighter side of me
Brighter side, brighter side you see
Brighter side, brighter side of me

Oh no no no
Oh it's her throughout all of this
Oh it's her throughout all of this

And for you I will change my ways
Yeah for you I will give all of my days
Cause without you I can't stand the pain
Oh without you it ain't the same here
And for you I will change my ways
Yeah for you I will give all of my days
Cause without you I can't stand the pain
Oh without you it ain't the same here

Oh cause you bring out
Baby you you you you throughout
Baby you you you you bring out

Oh the brighter side, brighter side of me
Brighter side, brighter side you see
Brighter side, brighter side of me
Oh the brighter side, brighter side of me
Brighter side, brighter side you see
Brighter side, brighter side of me
