

What A Day

Ben Howard

What a day to go around
Heavy in the sound of breaking mirrors
What a day to go around
Head up in the clouds thought you were better
What a way to come around
Well I take you out, I take you walking, healing
Mercy

Shadow nearing
Course there's knowing
Where to put the right words here in
Where does all the time go?

What a day to go around
Heavy in the sound of rivers breaking
What a day to go around
Well the sun came out and it was taking, breaking me up

What a day to go around
Well I take you out, I take you walking, healing

Missing light
Dancer on a pale blue sky
Where does all the time go?

Always fearing
Our hands clawing
Up against the light
It's nearing
Where does all the time go?

Always fearing
Our hands clawing up against
The light is nearing
Where does all the time go?
