

Not Today

Ben Kenney

Good to me
and only if it's perfect for you
so generous in all that you do
where would we be if there was no you
Not today
this ain't the time for having my way
forget about what i had to say
forget about what i need to say
Let me stay
i promise i'll be good and behave
i promise everything is ok
i promise i'll stay out of your way
not today
this ain't the time for having my way
forget about what i had to say
forget about what i need to say
not today
not today, i'm not having my way
not today, i'm not having my way
not today, i'm not having my way
