

Bad Taste

Ben Kessler

You left me in the worst way
Now you're still ruining my good days
Got me twisted over sideways
Yeah, you left me with a bad taste
And I'm struggling to place it
I buried all your flaws in the basement
I bet you see it all on my face
Yeah, you left me with a bad taste

You left me in the worst way
Now you're still ruining my good days
Got me twisted over sideways
Yeah, you left me with a bad taste
And I'm struggling to place it
I buried all your flaws in the basement
I bet you see it all on my face
Yeah, you left me with a bad taste

You're half the person that I fell for
The other half I don't know anymore
Look into my eyes and you don't say shit
Tell me the truth, I can take it

You're half the person that I fell for
The other half I don't know anymore
Look into my eyes and you don't say shit
Tell me the truth, I can take it

You left me in the worst way
Now you're still ruining my good days
Got me twisted over sideways
Yeah, you left me with a bad taste
And I'm struggling to place it
I buried all your flaws in the basement
I bet you see it all on my face
Yeah, you left me with a bad taste
