

Bad World

Ben Kessler

Found a dollar
Then it flew out of my hands
Almost had it all
Bought a new shirt
Tried to crop it and it ripped
Man that's pitiful
Threw a party
Then everyone called sick
Now I'm sitting in an empty house
Trying not to see
People that I love turn to people I can't reach
Everything I hold keeps on slipping from me

And I thought you'd be gone by now
Thought the light would've flickered out
Such a good thing in a bad world
You're a good thing in a bad world
I get beat up and I break down
You say baby lemme pull you out
Such a good thing in a bad world
You're a good thing in a bad world

Its a habit
Push away you pull me back
It's madness
Automatic
I'm always waiting for the worst thing to happen
And I panic
Cause you treat me so good
And nothing this good ever lasted for me
People that I love turn to people I don't reach
Everything I hold keeps on slipping from me

And I thought you'd be gone by now
Thought the light would've flickered out
Such a good thing in a bad world
You're a good thing in a bad world
I get beat up and I break down
You say baby lemme pull you out
Such a good thing in a bad world
You're a good thing in a bad world
