

Creature

Ben Kessler

I told you things I never told anyone else
I held you tighter than I held myself
It's been a bad ride in California
It's been a long time waiting for ya

You should've called me
I should've called you out
I saw you standing in the bleachers
Watching me like some kind of creature
You didn't hold me
You didn't make a sound
But I saw you standing in the bleachers
Watching me like some kind of creature

But I called you first
When no body ever called you back
That's just my curse
Only want what doesn't want me back
It's been a bad ride I wanna get off
It's been a long night waiting for ya

You should've called me
I should've called you out
I saw you standing in the bleachers
Watching me like some kind of creature
You didn't hold me
You didn't make a sound
But I saw you standing in the bleachers
Watching me like some kind of creature

But I miss you so bad
I just want you back
Now every day I see it clearer
You only love me like a creature
