

Good Enough

Ben Kessler

She listens to the same sad songs that I do
No makeup, no perfume
Got the same big dreams that I do
Love the way she speaks so see through

We're perfect on paper
Still finding every reason I can to forget her
So used to making my head hurt
Wondering if there's anybody else out there

'Cause when it's good
It never feels good enough, good enough
Why is it when it's good
It never feels good enough, good enough

Good enough, good enough
Good enough, good enough

I don't know what I'm waiting for
Feel like the only one I know that's never loved before
She's reaching her hand for the door
I'm calling her name like I want something more

Knowing even when it's good
It never feels good enough, good enough
Why is it when it's good
It never feels good enough, good enough
I wish I could see the real thing through
Guess I get bored if it ain't brand new
When it's good
It never feels good enough, good enough

Always looking for a way out
Hoping one day I can stay around
And settle down
Too insatiable right now
When it's good
I wanna feel good enough, good enough
When it's good
When it's good

It never feels good enough, good enough
Why is it when it's good
It never feels good enough, good enough
I wish I could see the real thing through
Guess I get bored if it ain't brand new
When it's good
It never feels good enough, good enough

Good enough, good enough
Good enough, good enough
