

## Right Here Right Now

Ben Kessler

Feel like I'm movin' fast but I'm barely movin'  
Focusin' on my dreams, been forgettin' you, yeah  
Oh, you say my name, I don't hear it  
You're in the air I ain't breathin'  
Makein' all this space between you and me, yeah  
I know you're somethin' I believe in  
I'm tryna pinch myself to feel it  
Bring me back to

Right here, right now  
I wanna hear your voice louder than any other sound  
Right here, right now  
I wanna catch your tears before they even hit the ground  
I wanna love you like I'm, I wanna feel you like I'm  
Right here, right now

Starin' at my phone tryna take our picture  
If I can't feel you now maybe I'll feel you later  
No I'm not livin' in our moments  
Hate the way I'm losin' my focus  
I'm used to holdin' you closest  
I'm prayin' that you don't notice  
Bring me back to

Right here, right now  
I wanna hear your voice louder than any other sound  
Right here, right now  
I wanna catch your tears before they even hit the ground  
I wanna love you like I'm, I wanna feel you like I'm  
Right here, right now  
I wanna love you like I'm, I wanna feel you like I'm  
Right here, right now

Guess I forget how good the present is  
There's something magic when your skin is on my skin  
Guess I forget how good I have it  
Fighting my way to this moment

Right here, right now  
I wanna hear your voice louder than any other sound  
Right here, right now  
I wanna catch your tears before they even hit the ground  
I wanna love you like I'm, I wanna feel you like I'm  
Right here, right now  
I wanna love you like I'm, I wanna feel you like  
Right here, right now
