

# Fight

Ben Kweller

He is a trucker  
Burning the highway  
His heart is strong as stone  
Counting them yard lines  
Passing the hard time  
Riding that black top home

[CHORUS:]

You gotta fight fight fight fight all the way  
You gotta fight fight fight all the way  
You gotta set your sight on the Lord in your life  
You gotta fight till your dying day

She is an intern  
Fighting the love burn  
Rolling out tears like a wave  
That angel's boy friend  
Left her with nothing  
But she'll never be his slave

[CHORUS:]

You gotta fight fight fight fight all the way  
You gotta fight fight fight all the way  
You gotta set your sight on the Lord in your life  
You gotta fight till your dying day

I'm like my grandma  
Short but I stand tall  
Playing every single card thats dealt to me  
Well you know some days are aces  
And some days are faces  
Well some days are 2's and 3's

[CHORUS:]

You gotta fight fight fight fight all the way  
You gotta fight fight fight all the way  
You gotta set your sight on the Lord in your life  
You gotta fight till your dying day
