

# Heart Attack Kid

Ben Kweller

Where do I begin  
With this spot I'm in  
It could take all night long  
I hit the concrete  
Don't care where we meet  
Swaying to the beat of a chemical song

I got your back, heart attack kid  
It doesn't matter what you did  
Stand up and come to your senses  
I got your back, heart attack kid

I can't stay awake  
Feels like winter break  
On this happy, sunny, grassy hill  
Throw down a flashlight  
Stand ground, wrong or right  
When it's time to fight, any brother will

I got your back, heart attack kid  
It doesn't matter what you did  
Stand up and come to your senses  
I got your back, heart attack kid

I got your back, heart attack kid  
It doesn't matter what you did  
Stand up and come to your senses  
I got your back

It doesn't matter what you did  
I got your back, I got your back  
I got your back, heart attack kid
