

I Have the Power

Ben Kweller

It's nothing personal right?
I'll follow you around but
I don't wanna call anybody
Kiss her arm

All of the colors shine
That's where the sun dines
Leave me the fuck alone
Hurray for love

I have the power, I
I can make her do something, but only if it's one thing
I, I have the power
Yeah I, I can make her roll her eyes

Inside your outer space
Caring and ultra warm
I lay in your bed all night
Staring at your shoulder blades
Yeah, now that your colors shine
And I've fallen way behind
I'm not even on your mind
Yeah, you're so fucking kind
Hurray for love

I have the power, I
I can make her do something, but only if it's one thing
I, I have the power
Yeah I, I'm gonna make her

(You suck)

I can make her do something, but only if it's one thing
I, I have the power
Yeah I, I'm gonna make her
Oh I, I can make her, I got
I got the power to roll her eyes

I high hi high
I high hi high
I high hi high
I high hi high

I hye high hi
I hye high hi
I hye high hi
I hye high hi
