

I wanna dance with you all night  
I wanna hold on to ya tight forever  
Or we could just go for a walk  
I'm happy just to hear ya talk forever  
Cuz I can't find my words when the lights go out

I see starz brighter than the milky way  
I see starz, wishin' that one day they would be ours  
Ya wishin' that one day they would be ours

I wanna love that's gonna shine  
Cuz hearts are breakin' all the time around us  
I wanna know whatcha think  
About this crazy thing that found us  
Cuz I can't find my thoughts when the lights go out

I see starz brighter than the milky way  
I see starz, wishin' that one day they would be ours  
Ya wishin' that one day they would be ours  
Woah!

Woah-ooh! You are the new constellation  
Woah-ooh! I got punched in the face from  
Woah-ooh! You are the new constellation  
Woah-ooh! I got punched in the face from  
Woah-ooh! And I... See...

Starz brighter than the milky way  
I see starz, wishin' that one day you would see starz  
Brighter than the milky way  
I see starz, wishin' that one day they would be ours  
Ya wishin' that one day they would be ours  
Woah!

Woah-ooh! You are the new constellation  
Woah-ooh! I got punched in the face from  
Woah-ooh! You are the new constellation
