

Blush

Ben Lee

Mon cmon cmon tell me your name
I think we spent a past life together
Cmon cmon cmon tell me your name
I think we spent a past life together
So good to see you again

Anytime I feel the rush
I might say something to make you blush
When all the way is not enough
Some might say my love will make you blush

I don't I don't I don't want nothing back
I wanna love you like the sun loves you
I don't I don't I don't want nothing back
I wanna love you like the sun loves you
I bet you've never been loved like that

Anytime I feel the rush
I might say something to make you blush
When all the way is not enough
Some might say my love will make you blush
So walk away and act tough
When I say something to make you blush
Cos always I not enough
Some might say my love will make you blush

Cos I know
It's cold
So stand firm
And be bold
I know
It burns
So hold tight
And stand firm
Cos hurt is the question
And love is the answer
And love is the answer
And love is the answer
And love is the answer

Anytime I feel the rush
I might say something to make you blush
When all the way is not enough
Some might say my love will make you blush
So walk away and act tough
When I say something to make you blush
Cos always I not enough
Some might say my love will make you blush

My love will make you blush
