

# Into The Dark

Ben Lee

I'm feeling better  
Since I surrendered  
You cant climb till youre ready to fall

You're not a landmine  
You're not a goldmine  
No, you're not mine at all

So tell me baby  
Can you hear me?  
I sent a message out into the dark  
It's a mystery  
When you're near me  
I've gotta find my way to your heart

I learned my lesson  
First impressions  
Are more often right than wrong

It's not a slow dance  
This modern romance  
Feels like we've already waiting too long

Don't worry baby  
About how it should be  
I sent a message out into the dark  
I'd rather talk to you  
About how it could be  
I've gotta find my way to your heart

I was one of those  
Breathing tornados  
But now I live at the eye of the storm  
And its all faded  
That sense of separation  
Since I let your love keep me warm

You tell me baby  
That you can feel me  
I sent a message out into the dark  
When I kiss you  
Thats the real me  
I've gotta find my way to your heart

So tell me baby  
Can you hear me?  
I sent a message out into the dark  
It's a mystery  
When you're near me  
I've gotta find my way to your heart
