

# Is This How Love's Supposed To Feel?

Ben Lee

You kissed me slow  
It happened way too fast  
I told myself  
There's no way it would last  
Is this how love's supposed to feel?  
Is this how love's supposed to feel?

And all my friends  
Are saying it's not right  
I want to sleep  
Beside you every night  
Is this how love's supposed to feel?  
Is this how love's supposed to feel?

So say you'll stay  
I promise I won't go  
There's just one thing  
I really need to know  
Is this how love's supposed to feel?  
Is this how love's supposed to feel?

Is this how love's supposed to feel?  
Is this how love's supposed to feel?  
Is this how love's supposed to feel?  
Is this how love's supposed to feel?
