Is This How Love's Supposed To Feel?

Ben Lee

You kissed me slow It happened way too fast I told myself There's no way it would last Is this how love's supposed to feel? Is this how love's supposed to feel? And all my friends Are saying it's not right I want to sleep Beside you every night Is this how love's supposed to feel? Is this how love's supposed to feel? So say you'll stay I promise I won't go There's just one thing I really need to know Is this how love's supposed to feel? Is this how love's supposed to feel?
