

Music 4 The Young & Foolish

Ben Lee

I could never leave you waiting
I've never been so close
There's nothing that we'd need to save here
So just let it go

And take me over, and leave me broken
'Cause this is music for the young and foolish

Spilling everything in the dark now
You can have it all
We can build it up to the stars
Just to watch it fall

So take me over, and leave me broken
'Cause this is music for the young and foolish

Don't wanna live under water, I don't wanna drown in the sun
Just wanna cry on your shoulder until the tidal wave comes
Don't wanna live under water, don't wanna drown in the sun
Just wanna cry on your shoulder until the tidal wave comes

Seeking for a secret craving. Headlights on a sign
I might have to walk away from you, babe, to make you mine

So take me over, and leave me broken
'Cause this is music for the young and foolish
So take me over, and leave me broken
'Cause this is music for the young and foolish
