

Rebel Eagle

Ben Lee

It's been on my mind
These Buddhas and Christs
And how they arrive

Without spilling the cup
Sometimes they got stuck
But they never gave up

And you and me
We're not free
But we can sense our destiny

'Cause all those angels once were people
That learned to see through the eyes
Of a rebel eagle

The effect and the cause
These are natural laws
And now we're facing our flaws

Working outside of time
We're committing no crime
But using our minds

'Cause you and me
We're not free
But someday we will surely be

With a wisdom and a love that's equal
We'll learn to see through the eyes
Of a rebel eagle

And way underneath
In perpetual peace
The Being it speaks

Saying come back home
Forget what you've known
You were never alone

'Cause you and me
We're not free
Living lives while half asleep

The truth will triumph over evil
When we learn to see through the eyes
Of a rebel eagle

Are you ready to fly now
Are you ready to die now
To what you believed in
To what you have seen

Are you gonna let go now
Are you ready to know now
What your heart has been whispering
To you and your dreams

We are learning to see through the eyes
We are learning to see through the eyes
We are learning to see through the eyes
Through the eyes
Of a rebel eagle
