

I'm No Loon

Ben Quad

I'm a deer in your headlights
You're the restless feeling I get
When I can't sleep
Where do we go when we realize
That things won't get better
Through fake smiles and clenched teeth?
I want you to love me
What do I do?
Oh God, please don't leave me
There's nothing we're more afraid of
Than letting go
'Cause we can't quit
What makes us comfortable
I want you to love me
What do I do?
Oh God, please don't leave me
