

It's A Kinkade!

Ben Quad

Out of reach, out of sight
That's the mindset
We're all stuck
Feeling empty, feeling older
Tell your friends that you are fine
Never better, never over
Desperate wishing all the time

On the run, left behind
Try to hide it
That's your lie
I could see it, I still knew you
Lost your sunspots, I felt blind
To the answers, to the right thing
I feel guilty, don't know why
I don't know why
I don't know why

I don't know why
Whoa-oh, whoa-oh-oh
Whoa-oh, whoa-oh-oh
Whoa-oh, whoa-oh-oh
Whoa-oh, whoa

I drove by the same place
That you said, "I'm trying
To stop it from taking
My mind and my body"
I picture the future
That you couldn't see through
I fall back to my dreams
To tell you I love you

I drove by the same place
That you said, "I'm trying
To stop it from taking
My mind and my body"
I picture the future
That you couldn't see through
I hold on to regrets
That I couldn't stop you
