

# Feel

Ben Rector

Like for the first time here in a long time I feel safe and warm

Like the hounds that I ran from  
Nipping at my heels have lost my trace in a storm

Like I've been lost, and I've been wandering  
And I found my way back home

Cause that's the way you make me feel  
Cause that's the way you make me feel  
It's magical, it's wonderful, it's everything I ever wanted  
And I can't believe it's real  
Cause that's the way you make me feel

Like evening weekends, like knowing a good friend  
Like a sweet release  
Like dodging a bullet, things went well and I thought that they  
would't  
Like I can finally breathe

Like I've been lost, and I've been wandering  
And I found my way back home

Cause that's the way you make me feel  
Cause that's the way you make me feel  
It's magical, it's wonderful, it's everything I ever wanted  
And I can't believe it's real  
Cause that's the way you make me feel

Oh I'm finally feeling  
Like I'm someone  
Who's worth believing in  
And you made me see it

Cause that's the way you make me feel  
Cause that's the way you make me feel  
It's magical, it's wonderful, it's everything I ever wanted  
Magical, wonderful, everything I ever wanted  
And I can't believe it's real  
Cause that's the way you make me feel

Cause that's the way you make me feel
