

Moving Backwards

Ben Rector

I saw you there
And looked you straight between the eyes
And said I'm leaving
And I don't care
And I don't know if they were lies
But I don't need them

Cause standing still
Isn't easy
When the world's moving backwards
The world's moving backwards
So get your fill
But please believe me
That the world's moving backwards
The world's moving backwards

And I say
So what if they're just stories
What if I need them?
So I pray
That you'll give me grace if you can hear me
That you'll give me grace if you can hear

Cause standing still
Isn't easy
When the world's moving backwards
The world's moving backwards
So get your fill
But please believe me
That the world's moving backwards
The world's moving backwards

So I pray that you'll give me grace if you can hear me
That you'll give me grace if you can hear me
And I pray that you'll give us grace if you can hear me
You'll give us grace
You'll give us grace
You'll give us grace

Cause standing still
Isn't easy
When the world's moving backwards
The world's moving backwards
So get your fill
But please believe me
That the world's moving backwards
The world's moving backwards
