

# Range Rover

Ben Rector

All my friends been asking where Amanda's been  
Said she seemed like such a perfect 10  
Asked me when I was gonna take her home to Cleveland

She was just your type  
Dark hair and with the green-brown eyes  
Real smart and she cleaned up nice  
They asked me why,  
Said if you really need a reason  
Well...

I'm looking for a girl that's fine if I drive a Civic  
And she does not mind ridin' in it with the windows down  
Cranking Steve Winwood loud next to me  
I'm looking for a girl who sees passed blown speakers  
And a broke A/C in a two seater  
With a quarter million miles on the motor  
And she was looking for that Range Rover  
Yeah she just wants that, she wants that Range Rover  
Just wants that Range Rover

Well I should have known  
When she was searching for designer homes  
The custom kitchen with the viking stove  
Saving pictures on that big iPhone (you know the one)  
And she hated beer  
She didn't catch a college game all year  
She was way too into my career  
She tried to pick the single and it all came clear

That I was looking for a girl thats fine if I drive a Civic  
And she does not mind riding in it with the windows down  
Cranking Steve Winwood loud next to me  
I'm looking for a girl who sees past blown speakers  
And a broke A/C in a two seater  
With a quarter million miles on the motor  
And she was looking for that Range Rover  
Yeah she just wants that, she wants that Range Rover  
Just wants that Range Rover

Well she was looking for that Range Rover I was in a Civic  
I tried to take a road trip she just wasn't with it  
If this music wasn't paying she'd have left me in a minute  
Left me in a minute

I'm looking for a girl thats fine if I drive a Civic  
And she does not mind riding in it with the windows down  
Cranking Steve Winwood loud next to me  
I'm looking for a girl who sees past blown speakers  
And a broke A/C in a two seater  
With a quarter million miles on the motor  
And she was looking for that Range Rover  
Yeah she just wants that, she wants that Range Rover

Just wants that Range Rover
